PROFESSIONAL SUMMARY

Tech Lead accountable for technical direction, from client conversations through delivery. Leads architecture decisions, prioritization, refinement, code reviews, and team development while remaining hands-on.

PROFESSIONAL EXPERIENCE

Podtech | Tech Lead

Jul. 2025 - Present

- Provides technical leadership to a team of 10+ developers, guiding architecture, prioritization, and project execution from client alignment through production delivery.
- Helped increase the team's average delivery capacity from 2 to 4-5 features per sprint by mentoring the use of AI as a development support tool.
- Translates business goals into technical scope, guiding priorities and architecture decisions.
- Develops the team through 1:1s and code reviews while remaining hands-on and supporting developer growth.

STi3 Sistemas | Backend Developer

Jan. 2025 - Jul. 2025

- Designed asynchronous communication between services and devices, including recurring jobs, task reprocessing, and traceability.
- Optimized database query performance and bulk processing in a multi-tenant environment with multiple databases.

OnFriday Technologies | Intern to Senior Software Developer

Oct. 2021 - Dec. 2024

- Progressed from intern to senior software developer, beginning in frontend development and expanding into backend, integrations, and direct communication with clients and stakeholders.
- Built real-time notifications and chat for a legal services platform.
- Contributed to the design of a ticketing platform, gathering requirements directly from clients and translating business needs into technical solutions.
- Implemented payment gateway integrations, AI-powered scheduling, and internationalized white-label dashboards for BaaS platforms.

SKILLS

Data modeling for multi-tenant SaaS products, DevOps, .NET/C#, React, TypeScript, Feature-Sliced Design (FSD), Clean Architecture, microservices, SQL Server, PostgreSQL, Azure, Docker, Kubernetes, CI/CD, Jenkins, automated testing (unit, integration, and end-to-end), UX analytics, conversion rate optimization (CRO), Microsoft Clarity, code review, technical leadership, mentoring, and incident management.

EDUCATION AND CERTIFICATION

Microsoft | Microsoft Certified: Azure Fundamentals (AZ-900) | 2023

FATEC Jahu | Internet Systems | 2021 - 2023

ETEC Jahu | Technical Degree in Systems Development | 2020 - 2021
